An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Election/Restrictions

This application is in condition for allowance except for the presence of claims 11-22 non-elected without traverse. Non-elected inventions are drawn to products that are patentably distinct from the elected product and differ from the elected invention in structure, function and use. Accordingly, claims 11-22 have been cancelled.

In the Abstract:

The Abstract has been amended as follows:

The invention is directed to an [An] isolated gene and protein product, designated Hepp, ~~having a~~ which has a role in mammalian hematopoiesis and neural function, and is further directed to a genetically modified non-human mammal that is homozygous or heterozygous for a disruption in the endogenous Hepp gene.

In the claims:

Claims originally numbered as 11-22 are cancelled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Applicant has argued that the phenotypes exhibited in a mouse with a disruption in the Hepp gene, the human homolog of which maps to the same chromosomal region as a number of known human disorders, resemble characteristics of a number of said human. Applicant has demonstrated utility for the claimed nucleic acid in generating animals as potential models for disease as well as in use as probe to detect nucleic acids related to SEQ ID NO:1 and detect homologs in other species, which has a demonstrated role in hematopoiesis and neural function.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
